

CERTIFICATE OF CONFORMITY RoHS

Täby, 2006-02-13

To whom it may concern,

Environmental compatibility represents a fundamental business goal of SPECTROGON alongside innovative development and production of state of the art optical components.

As a consequence of SPECTROGON's long term engagement and in ambitions in the work of reducing the use of dangerous or environmentally harmful products we are proud to be able to give the following declaration of compliance:

We certify that all products produced and shipped by SPECTROGON conform in all aspects to the current provisions of the European Economic Area (EEA) with respect to the 2002/95EG (RoHS) Directive which restricts the marketing of products containing dangerous substances. SPECTROGON products contain none of the applicable substances.
